

MODEL C-8

The CROWN C-8 speakers are expressly designed for the audiophile who wants the very best cone speaker for his investment.

We have put a great deal of effort into carefully engineering these speakers to match the quality and audio integrity of our components and recorders.

The introduction of our IC-150 Pre-amp and other equipment created an 'Audio Happening' all over the world! CROWN speakers will do the same! They have the capability to yield an uncompromising sound.

These speakers are 3 way, utilizing 2 woofers which have the durability to withstand the thundering crash of a bass drum, 2 midrange speakers which will bring out the often obscured middle instruments and 4 fully adjustable tweeters for individually tailoring the sound to suit the only person we care to suit -- you!!

CROWN C-8's will provide a 'head-and shoulders-above sound' when compared to other speakers in their price range.

Speaker Complement	2-10" loaded, 2-5" 2-2 1/2", 2- 2 1/4"
Usable Frequency Response in Recommended Max. Room Crossover Frequencies	28 Hz - 18 kHz
Recommended Max. Room Size	1500 Hz
Recommended Max. Amp Power	7000 Hz
Dimensions	4000 Cu. Ft.
Shipping Weight	75 watt
	18 x 27 1/2 x 12 Deep
	65 lbs.

Special Features:

1. Dacron damping material in woofer and midrange enclosures
2. Woofer exhibits absolutely no peakiness over entire range
3. Dual 2 1/2 and 2 1/4 tweeters operate in parallel to smooth out individual cone problems above 10 kHz.
4. Adequate high frequency capability to overcome some room absorptive problems.

****WARRANTY****: The CROWN warranty is very simple: We will repair any speaker for 3 years from the date of purchase FREE! This includes parts, labor and round-trip shipping to and from CROWN, if there is no CROWN authorized warranty station near you.
